### The President's *STEERING COLUMN*

and there is a fair chance I'll be hanging out there too.

Our meeting last month at the Boarding House in Issaquah was well attended and we even had some new 'former' members. You can read about them in Greta's notes. As you know, January is the month for planning our events for the year and we came up with a complete list! I am excited about the fun activities we have planned for you. We have a few 'tech' meets, garage tours, fall colors tour and a favorite of mine, the annual picnic at Mud Mountain dam. All of these events are open to our fellow chapter members up north and down south, as well as the Avanti club.

I received a very nice card in the mail from Gary and Virgie Finch, from Spokane, WA. It is so neat to meet people in the club. They have some wonderful Studebakers and also some Nashes and a 1965 Rambler Marlin, so I know they are my kind of people! I hope to meet them and many more club members this year.

I had written in last month's greeting,

that the Seattle chapter was in charge of the 2018 Studebaker National and will need volunteers. It came to my attention at January's meeting, that the Seattle chapter hasn't yet approved or declined the decision to participate with the local chapter of the Avanti club. We will be discussing this opportunity and its responsibilities at upcoming meetings. If you have any feelings one way or the other, please let me know. You can email me at [francie1965@yahoo.com](mailto:francie1965@yahoo.com).

Our February meeting will be a special "Valentine's Day" luncheon for all those sweethearts out there. It will be at Charlies in Puyallup. Details are in this newsletter.

I hope we have a few sunny days in February to get out and drive our cars. Usually there are a few warm, spring-like afternoons and it makes me excited and a bit anxious for spring.

All the best,

"Laurel Berry

Happy February to everyone!

I, for one, am glad January is over. It is my least favorite month and seems to drag on for more than 4 ½ weeks. February is better with Valentine's Day and a couple of swap meets in Puyallup. First Gentleman Rick always has booths at both the Corvette High Performance meet and the Early Bird meet. If you are going to either or both of those, stop by and see him –

I had written in last month's greeting,

#### Internationals

May 3-7 2017

August 22-25, 2018

53rd SDC International -South Bend, Indiana

54th SDC International -Tacoma WA?

Our January meeting, was held at the Boarding House restaurant in Gilman Village in Issaquah. After everyone had gorged themselves on the restaurant’s famous scrumptious sandwiches, our president, Laurel Berry, got us down to the business of figuring out what we wanted to do during the coming year, The results of this successful exercise can be found in the tentative schedule of events found on page 2 of this publication.

The meeting was very well attended, and even included a few new faces. Jerry Walker and his wife Myrna are old new members—Jerry has been out of touch for a few years, and we are delighted to welcome him and Myrna back. Also attending were John Colvin and his wife Marion. John was a charter member of the founding of the Seattle SDC. We hope to see more of him and Marion. Evelyn and Clayton Hoebelheinrich came from down south, Don and Joan Andersen, Don Albrecht, Mary West, Bill Hallett, and Odd and Greta Justad rounded out the list of attendees.

Especially with the new faces, Laurel had everyone introduce themselves and also explain how we got into this hobby in the first place. The stories were varied and fascinating—amazing how many different roads lead to STUDEBAKER in the end.

Afterwards we drove over to Boehms chocolate factory to satisfy everybody's sweet tooth. Hope to see you all in Puyallup at the Valentine meeting next month.

**TECH CORNER**

To those of us who do some welding, TIG or MIG, NEVER clean the parts you are about to weld with brake cleaner. It can be deadly.

The chemical in the brake cleaner is Tetra-chloroethylene. When this chemical is exposed with excessive heat and argon (used in MIG and TIG welding) it also produces phosgene.

*Phosgene can be fatal with a dose as little as 4 parts per million.*

*Symptoms can be delayed from 6-48 hours after exposure.*

***There is NO antidote for Phosgene.***

*Long term effects can be chronic bronchitis and emphysema*

**THE EDITOR’S NORWEGIAN SIDE**

When Ole and Lena died, they were met at the pearly gates by St. Peter. The old saint welcomed them and then asked if there was anything he could do for them. “Yah” said Ole, “ve vould like to get married. While ve vere on eartah, there was always something interfering and ve yust didn’t get a chance to get married” St. Peter said, “Well you come back in 50 years and I’m sure we can fix you up.

“FIFTY YEARS?” exclaimed Ole. “Dat’s an awful long time.” “Not in Heaven it isn’t said St. Peter. “Times goes by swiftly here.” So Ole and Lena waited 50 eears and then went to St. Peter announcing they were ready to be married. St. Peter checked his records and said. “Well, I’m afraid we can’t get it done right now. Just come back in another 50 years..” Ole was really chagrined saying, “Ve vaited all dat time on earth and den fifty years up here. And now you vant us to vait annudder 50 years.” St. Peter listened compassionately and finally said, “Well here’s what we’ll do. You just wait another 50 years, if we don’t have a Lutheran preacher here by that time, I’ll marry you MYSELF.”

Who can identify model and year of this Studebaker (Picture date 1958 and your editor is driving)  
Now looking at the instrument panel, I think Walt's answer last month is probably correct.
